Once again, EuroShop's traditional opening event will be the EuroShop RetailDesign Conference on February 17, 2014.

Hosted by veteran moderator Professor Rodney Fitch, an icon of international retail design, the event will see globally renowned retail companies present their newest concepts; top-class retail designers will give us insights into their current projects.

EuroShop and EHI are particularly pleased that we have been able to win one of the world's most influential trend researchers, Lidewji Edelkoort, for the keynote speech concluding the event.

And there is another special highlight: The exclusive presentation of the winners of the 2014 EuroShop RetailDesign Award, bestowed upon the three best stores from across the world on the evening of February 16, 2014, in the Capitol Theatre in Düsseldorf.

We look forward to greeting you in Düsseldorf!

Kind regards

As part of the trade fair, EHI and Messe Düsseldorf have presented the EuroShop Retail Design Award to the top three store concepts worldwide since 2008. The winners will be presented on **February 16 at 7.00 pm in the Capitol Theater Düsseldorf**, the eve of the EuroShop RetailDesign Conference 2014.

For the EuroShop RetailDesign Award an international team of experts made up of representatives of leading press publications and retail associations nominates the best stores with the most successful concepts. From the multitude of candidates the jurors then select the three best stores.

Criteria are inspiring design, a clear message in terms of product range, an unambiguous appeal to a specific target group, and very good corporate design. Categorisation by sectors or selling space is dispensed with.
